

Dear Jon,

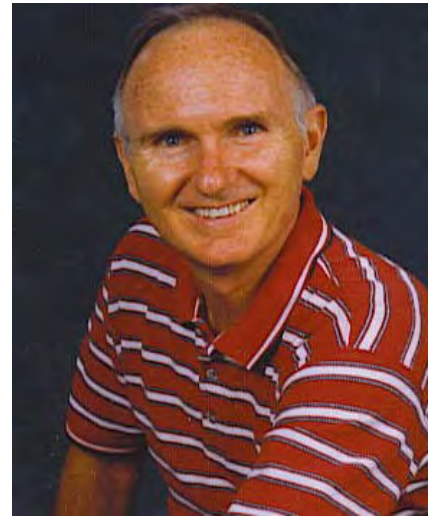

Your proteolytic enzyme formulation is tremendous! I received my first order 6 days ago at my office. My last patient before lunch was a lady who was experiencing excruciating full-blown sciatic neuritis. She was on really strong medication had been to an acupuncturist and a massage therapist prior to coming to my office.

Even after my treatment there was no immediate change in her condition. My computer analysis of her spine indicated that the spine was structurally stable. I explained to her that her problem was definitely inflammatory in nature. I had been giving her an enzyme formula from a professional source but there had been no help, so I suggested your product. I recommended 3 capsules 3 times a day on an empty stomach.

The next morning this lady called my office and told my staff to tell me that she felt great and had no pain at all. **I have never seen such an extraordinary turnaround in a case that severe in my 29 years of practice!**

That's not all. Later on last Tuesday I took a bottle of your enzymes to my Aunt Jeanne. She is in her early 70's and spends her life in bed or seated in a small scooter. She has advanced rheumatoid arthritis and lung damage so bad that she is on oxygen 24 hours a day.

Unfortunately, in the last year greater and greater amounts of oxygen have been required as her lung condition has degenerated. She was very weak, very pale, and her fingers and toes were purple due to lack of circulation and oxygen deprivation. She was on prednisone and other strong medications. I recommended she start out with 2 capsules 3 times a day on an empty stomach.

I talked to her at lunch the next day and could hardly believe what she told me when I asked how she was doing. She said that she had slept through the night without pain pills for the first time in many months! Then she said that circulation had returned to her body to the extent that her cheeks were rosy, her arms, legs, hands, and feet were pink. **All of the cyanosis was gone!** In addition, she said that she had been working out of her scooter all morning and was no more winded than if she had been in bed all morning. That was incredible to me! I was thrilled.

There is still more. I saw Aunt Jeanne Saturday and she looked amazing with the color in her skin. **It was amazing to see.** I called her yesterday, and she literally sounded like a 30 year old! Usually when I would talk to her on the phone she would be so winded and out of breath that I was actually concerned about her life. But she sounded wonderful and told me that she had had a very good day.

She then told me that she had had a long time problem with plaque on her teeth. **Well, she said that morning she noticed that all of the plaque was gone! This was after being on the product only 5 days.** Neither of us expected that! We both know that she has a long way to go and that the road will be long considering her condition; however, at least **now she has hope and is optimistic about the future.**

Thank you, Jon, for putting together such a wonderful product. I have seen other great results in these first 6 days with others, myself included, but I will save that for another time. **I am more excited about this product than any I have ever used in the last 30 years. It makes sense and it works! Thanks again.**

Blessings,

Phil H, BS, DC Feb 6th, 2004
